...the existing situation, but it added that the situation should change the general world recorder.

It was on this aspect of the situation the emphasis was laid as the general point of interest being the probability of there being a positive attitude against the Moslems which would allow them to participate in the London talks.

The possibility that Dr. Chalmers Westmann might enter the executive in one capacity or another was not altogether excluded, it was understood in well-informed circles.

LONDON, Dec. 25 (UPI)—A Jewish Agency spokesman said today that Dr. Weizmann might make a "supreme effort" here to agree on a formula with the British that would enable the Jewish Agency to participate in the January conference on Palestine.

CAIRO, Egypt, Dec. 25. As a direct sequel to the Zionist Congress' decision not to attend the London Palestine conference the Executive Arab Higher Committee announced tonight that it would ask the Arab states to boycott the conference unless the Palestine Arabs were invited on their own terms.

### Higher Committee Is Reported Ready to Leave Jerusalem

Special to The New York Times  
JERUSALEM, March 30.—A departure in Palestine Arab political strategy was seen here in a Jaffa newspaper report that the Arab Higher Committee head offices were being transferred from Jerusalem to Cairo, Egypt.

Observers regard the step as doubly significant. If the report proves true, First it will place the Higher Committee under the direct control of the exiled Mufti of Jerusalem who resides in Cairo. Second, it is designed to remove the Higher Committee's operations from the orbit of direct British influence.

This would forestall possible obstruction by the British should the Arabs decide upon action if dissatisfied with the United Nations' handling of the Palestine case.
